Minnesota Rules: Amendments and Additions

NOTICE: How to Follow State Agency Rulemaking in the State Register

The *State Register* is the official source, and only complete listing, for all state agency rulemaking in its various stages. State agencies are required to publish notice of their rulemaking action in the *State Register*. Published every Monday, the *State Register* makes it easy to follow and participate in the important rulemaking process. Approximately 80 state agencies have the authority to issue rules. Each agency is assigned specific **Minnesota Rule** chapter numbers. Every odd-numbered year the **Minnesota Rules** are published. The current 1999 set is a 13-volume bound collection of all adopted rules in effect at the time. Supplements are published to update this set of rules. Generally speaking, proposed and adopted exempt rules do not appear in this set because of their short-term nature, but are published in the *State Register*.

An agency must first solicit **Comments on Planned Rules** or **Comments on Planned Rule Amendments** from the public on the subject matter of a possible rulemaking proposal under active consideration within the agency (*Minnesota Statutes* §§ 14.101). It does this by publishing a notice in the *State Register* at least 60 days before publication of a notice to adopt or a notice of hearing, or within 60 days of the effective date of any new statutory grant of required rulemaking.

When rules are first drafted, state agencies publish them as **Proposed Rules**, along with a notice of hearing, or a notice of intent to adopt rules without a hearing in the case of noncontroversial rules. This notice asks for comment on the rules as proposed. Proposed emergency rules and withdrawn proposed rules are also published in the *State Register*. After proposed rules have gone through the comment period, and have been rewritten into their final form, they again appear in the *State Register* as **Adopted Rules**. These final adopted rules are not printed in their entirety in the *State Register*, only the changes made since their publication as Proposed Rules. To see the full rule, as adopted and in effect, a person simply needs two issues of the *State Register*, the issue the rule appeared in as proposed, and later as adopted. For a more detailed description of the rulemaking process, see the most current edition of the *Minnesota Guidebook to State Agency Services*.

The *State Register* features partial and cumulative listings of rules in this section on the following schedule: issues #1-13 inclusive; issues #14-25 inclusive; issue #26 cumulative for issues #1-26; issues #27-38 inclusive; issue #39, cumulative for issues #1-39; issues #40-51 inclusive; and issues #1-52 (or 53 in some years), cumulative for issues #1-52 (or 53). An annual subject matter index for rules was separately printed usually in August, but starting with Volume 19 now appears in the final issue of each volume. For copies or subscriptions to the *State Register*, contact Minnesota's Bookstore, 660 Olive Street (one block east of I-35E and one block north of University Ave), St. Paul, MN 55155 (612) 297-3000, or toll-free 1-800-657-3757.

Commissioners' Orders

Various agency commissioners are authorized to issue "commissioner's orders" on specified activities governed by their agency's enabling laws. See the *Minnesota Statutes* governing each agency to determine the specific applicable statutes. Commissioners' orders are approved by assistant attorneys general as to form and execution and published in the *State Register*. These commissioners orders are compiled in the year-end subject matter index for each volume of the *State Register*.

Department of Natural Resources

Official Notices

Pursuant to *Minnesota Statutes* §§ 14.101, an agency must first solicit comments from the public on the subject matter of a possible rulemaking proposal under active consideration within the agency by publishing a notice in the *State Register* at least 60 days before publication of a notice to adopt or a notice of hearing, and within 60 days of the effective date of any new statutory grant of required rulemaking.

The *State Register* also publishes other official notices of state agencies and non-state agencies, including notices of meetings and matters of public interest.

Department of Administration Sort Through the Mess

Because you will quickly find what you need for your rules research. You receive more through a subscription than just viewing the *State Register* on our website. Subscribe and receive many LINKS to the *State Register*. Open the *State Register* and click on Bookmarks in the upper right corner. You also receive ALL the current rules, with an INDEX, and previous years' indices. And you receive a summarized "Contracts & Grants" section to review. Subscriptions cost \$180 a year (normal cost \$260 - an \$80 savings). Here's what you'll get:

- **WORD SEARCH Capability**
- **LINKS, LINKS, LINKS**
- **E-mailed to you . . . its so easy**
- **Early delivery, on Friday**
- **"Contracts & Grants" Open for Bid**
- **Updates to Index to Vol. 31**
- **Indexes to Vols. 30, 29, 28 and 27**
- **Easy Access to *State Register* Archives**

And it's all E-mailed to you, at end-of-day on Friday, instead of waiting for the non-subscriber's issue released on Monday. Contact Cathy Hoekstra, our subscriptions manager, at (651) 297-8777, or **Fax:** (651) 297-8260, or **E-mail:** cathy.hoekstra@state.mn.us

Official Notices

Minnesota Department of Health

Notice of the List of Analytes Available for Certification Related to Rules Governing Environmental Laboratory Certification, *Minnesota Rules*, 4740.2010 through 4740.2120

This notice is given to meet requirements in *Minnesota Rules* 4740.2050, Subpart 3.

Every six months, the Minnesota Department of Health reviews the list of analytes available for certification and publishes revisions to the list. The department revises the list based on recommendations from the state and federal agencies utilizing the environmental laboratory certification program.

NOTICE IS HEREBY GIVEN that the list of analytes available for certification by the department has been modified.

Minnesota Higher Education Facilities Authority Notice of Public Hearing on Revenue Obligations on Behalf of Saint Olaf College

NOTICE IS HEREBY GIVEN that a public hearing will be held by the Minnesota Higher Education Facilities Authority (the "Authority") with respect to the proposal to issue revenue bonds or other obligations on behalf of the St. Olaf College, a Minnesota nonprofit corporation (the "College"), as owner and operator of the St. Olaf College, an institution of higher education, at the Authority's offices at 380 Jackson Street, Suite 450, St. Paul, Minnesota on Wednesday, November 15, 2006, at 2:00 p.m.

Under the proposal, the Authority would issue its revenue bonds or other obligations in an aggregate original principal amount of up to \$48,000,000 to (a) finance the acquisition, construction, improvement and equipping of a new Science Complex, consisting of a new approximately 194,000 square foot Science Building, the Old Music Hall Building and a connection between them (the "Project"); and (b) refund the Authority's Revenue Bonds, Series Four-R (St. Olaf College) (the "Series Four-R Bonds").

The Series Four-R Bonds were originally issued to finance a portion of the costs of (i) the acquisition, construction and equipping of a student union type facility of approximately 175,000 square feet for food service operation, student organization offices and support areas, student governmental offices, the bookstore, a movie theater, a student-programmed entertainment facility, the telecommunications center, a post office facility and conference and banquet facilities (the "Buntrock Commons Project"); (ii) the acquisition and installation of an electrical generator; (iii) the acquisition and installation of hardware and software for general academic and administrative computing, telecommunications and networking; (iv) the acquisition and installation of hardware and software for financial and human resources payroll information system; (v) classroom renovations and the acquisition of new classroom furnishings; (vi) the acquisition of residence hall furniture; and (vii) various improvements relating to roadways, parking lots, heating control systems, cooling systems and the campus utility distribution system, each including appurtenant site improvements (collectively, the "1998 Project").

The Project and the 1998 Project described in this notice are all owned and operated by the College and located on its main campus, the principal street address of which is 1520 St. Olaf Avenue, Northfield, Minnesota.

At said time and place the Authority shall give all parties who appear or have submitted written comments, an opportunity to express their views with respect to the proposal to undertake and finance the Project and the refunding of the Series Four-R Bonds.

Dated: October 30, 2006.

Minnesota Department of Labor and Industry Construction Codes and Licensing Division

Request for Comments on Possible Amendment to Rules Governing Plumbing, *Minnesota Rules, Chapter 4715*

Subject of Rules. The Minnesota Department of Labor and Industry (Department) requests comments on its possible amendment to the Minnesota State Plumbing Code, including rules governing the licensing and bonding of plumbers and water conditioning contractors and installers. *Minnesota Rules*, Chapter 4715 (Plumbing Code) is intended to provide principles, materials and methods for installations of plumbing that will be safe and sanitary. This code is founded upon certain basic principles of environmental sanitation and safety through properly designed, acceptably installed and adequately maintained plumbing systems. The code requires submission of plans for plumbing installations that serve the public, so that the Department can review the plans for compliance with the code. The code also requires inspections of installations of plumbing, and provides local jurisdictions with the ability to administer certain rules locally. The Plumbing Code provides for examination and licensing of plumbers and water conditioning contractors and installers.

The Department is considering several amendments to Chapter 4715. Chapter 4715 was first adopted in 1969, but has been revised periodically to stay current with new materials and methods. This chapter was last modified in 2003.

The rule amendments being considered fall into the following categories:

- Approving new materials and methods, which would increase the options for plumbing designers and installers. This may include changes in provisions for venting and engineered systems for water conservation.
- Updating reference testing standards to stay current with references.
- Correcting and clarifying existing rule language.
- Amending cross-references to the plumbing code and other construction codes as necessary.
- Updating installation requirements to stay current with changing health and industry needs.
- Updating the state plumbing code for consistency with national plumbing codes

Persons Affected. The amendment to the rules would likely affect plumbers, plumbing apprentices and trainees, water conditioning contractors and installers, and building contractors.

Statutory Authority. The authority to adopt the rules is *Minnesota Statutes*, sections 326.37 to 326.45 and 326.57 to 326.65, and Department of Administration Reorganization Order No. 193. Until May 16, 2005, the State Plumbing Code was adopted, administered, and amended by the Department of Health pursuant to *Minnesota Statutes*, sections 326.37 to 326.45 and 326.57 to 326.65. *Minnesota Statutes*, section 326.37, authorizes the Department Health to adopt rules that prescribe minimum standards for all new plumbing installations. *Minnesota Statutes*, section 326.40, requires the Department of Health to adopt rules for the examination and licensing of plumbers. *Minnesota Statutes*, section 326.57, requires the Department of Health to adopt rules that prescribe minimum standards for all new watering conditioning servicing and water conditioning installations. *Minnesota Statutes*, section 326.60, requires the Department of Health to adopt rules for the examination and licensing of water conditioning contractors and installers. *Minnesota Statutes*, section 326.61, requires the Department of Health to adopt rules prescribing limitations on the nature of the work performed by a licensed water conditioning contractor or installer, and allows the Department of Health to adopt rules requiring the filing of plans before the installation commences.

By Executive Order issued under *Minnesota Statutes*, section 16B.37 (Department of Administration Reorganization Order No. 193), Governor Pawlenty transferred the responsibility for the State Plumbing Code to the Department of Labor and Industry, effective May 16, 2005.

Public Comment. Interested persons or groups may submit comments or information on these possible rule amendments in writing until further notice is published in the *State Register* that the Department intends to adopt or to withdraw the rules. The Department has appointed an advisory committee to comment on the possible rule amendments. A list of committee members is posted on the Department's Web site at: http://www.doli.state.mn.us/pe_council.html

The Department anticipates that this advisory committee will complete its work on the possible rule amendments by April 2007.

Rules Drafts. The Department has not yet prepared a draft of the possible rule amendments. When a draft of the possible rule amendments becomes available to the public, the draft and other information about the rulemaking will be posted on the Department's rulemaking docket at: http://www.doli.state.mn.us/rulemaking_activity.html

Agency Contact Person. Written comments, questions, requests to receive a draft of the rule amendments when it has been prepared, and requests for more information on these possible rule amendments should be directed to: Randy Ellingboe at the Minnesota Department of Labor and Industry, 443 Lafayette Road North, St. Paul, MN 55155, phone: (651) 284-5879, FAX: (651) 284-5748, and e-mail: randy.ellingboe@state.mn.us. TTY users may call the Department at (651) 297-4198.

Alternative Format. Upon request, this Request for Comments can be made available in an alternative format, such as large print, Braille, or cassette tape. To make such a request, please contact the agency contact person at the address or telephone number listed above.

NOTE: Comments received in response to this notice will not necessarily be included in the formal rulemaking record submitted to the administrative law judge if and when a proceeding to adopt rules is started. The agency is required to submit to the judge only those written comments received in response to the rules after they are proposed. If you submitted comments during the development of the rules and you want to ensure that the Administrative Law Judge reviews the comments, you should resubmit the comments after the rules are formally proposed.

Public Hearing on Mound and Minnetrista Area Components of the Lake Minnetonka Area Regional Interceptor Improvements Project Facility Plan

Mound City Hall
5341 Maywood Road
Mound, Minnesota
Thursday, November 30, 2006
6:30 p.m.

The Metropolitan Council will hold a public hearing to accept comments on the Mound and Minnetrista Area Components of its Lake Minnetonka Area Regional Interceptor Improvements Project Facility Plan. The Draft Facility Plan for this project, prepared by the Metropolitan Council's Environmental Services Division (MCES), outlines alternatives studied and the resulting recommendations for improving the regional sanitary sewer system in Mound and southeast Minnetrista. The recommendations include:

- **Closing two pumping stations** (located at Manchester Road and Cambridge Lane and at Wilshire Boulevard and Bradford Lane) and combining their functions into a new pumping station to be constructed near Swenson Park (on Manchester Road). Constructing new gravity interceptor sewers and force main interceptor sewers to connect existing facilities with the new combined pumping station.
- **Closing the interim pumping station** at Commerce Boulevard and Shoreline Drive, and rehabilitating the existing pumping station and maintenance facility on Westedge Boulevard near Setter Circle. Constructing a new gravity interceptor sewer from the interim pumping station site west along the railroad corridor on the north side of Langdon Lake, then south along Westedge Boulevard to the rehabilitated pumping station. Constructing a new force main interceptor sewer from the rehabilitated pumping station south along Westedge Boulevard and County Road 44 to the Lake Minnetonka Regional Park north of Highway 7.

Official Notices

The recommended improvements would provide additional sewer capacity to serve growth in this part of the region and increase reliability of the facilities. Construction of the facilities would be scheduled for 2008-2012.

Copies of the Draft Facility Plan for the Mound and Minnetrista Area Components of the Lake Minnetonka Area Regional Interceptor Improvements Project are available for review at:

- Mound City Hall, 5341 Maywood Road, Mound
- Minnetrista City Hall, 7701 County Road 110 W., Minnetrista
- Westonka Library, 2079 Commerce Blvd., Mound
- Metropolitan Council's Data Center, 390 Robert Street North, St. Paul

All interested persons are encouraged to attend the hearing and provide comments. You also may submit comments, which must be **received** by the Metropolitan Council no later than December 11, 2006:

- Send written comments to: Tim O'Donnell at Metropolitan Council Environmental Services, 390 Robert Street North, St. Paul, MN 55101-1805
- Fax comments to: Tim O'Donnell at (651) 602-1477
- Record comments on: Metropolitan Council Public Comment Line at (651) 602-1500
- E-mail comments to: data.center@metc.state.mn.us
- Send TTY comments to (651) 291-0904

Upon request, the Council will provide reasonable accommodations to persons with disabilities. Please submit such requests to Tim O'Donnell via mail or fax (see above) or by phone at (651) 602-1269 before November 22, 2006.

Minnesota Pollution Control Agency Industrial Division

Notice of Intent to Reissue National Pollutant Discharge Elimination System (NPDES) and State Disposal System (SDS) General Permit MNG490000 Construction Sand and Gravel, Rock Quarrying and Hot Mix Asphalt Production Facilities

NOTICE IS HEREBY GIVEN that the Minnesota Pollution Control Agency (MPCA) proposes to reissue a general permit covering construction sand and gravel, crushed and broken stone, or dimension stone mining and quarrying, hot mix asphalt production areas, pit dewatering flow from construction sand and gravel mine pits, and wet scrubber wastewater disposal systems at hot mix asphalt production facilities in the state of Minnesota. This general permit covers approximately 145 facilities subject to the construction sand and gravel storm water and pit dewatering requirements. This permit is a reissuance of a general permit issued on October 24, 2001; the reissued general permit has a duration of approximately five years.

Persons wishing to discharge storm water and/or pit dewatering water must submit an NPDES permit application and meet all applicability criteria listed below. Facilities which do not meet all of the applicability criteria listed below will be evaluated for issuance of an individual NPDES permit under *Minnesota Rules* chapter 7001.

Construction sand and gravel mining areas (Standard Industrial Classification [SIC] Code 1442) that discharge storm water and/or discharge mine pit dewatering water, and do not discharge washing or other process wastewater, to waters of the state.

Dimension stone, crushed and broken limestone, crushed and broken granite, crushed and broken stone mining and quarrying areas (SIC Codes 1411, 1422, 1423 and 1429) that discharge storm water and do not discharge pit dewatering water or washing or other process wastewater, to waters of the state.

Hot mix asphalt production areas (SIC Code 2951) that discharge storm water, and/or install, construct, and operate wet scrubbers at hot mix asphalt production plants, but do not discharge the scrubber water to waters of the state.

This general permit establishes effluent limitations, monitoring requirements and other conditions for facilities discharging storm water from construction sand and gravel, crushed and broken stone, or dimension stone mining and quarrying areas, hot mix asphalt productions areas, pit dewatering flow from construction sand and gravel mine pits; and wet scrubber wastewater disposal systems at hot mix asphalt production facilities. The Commissioner's determination that the general permit should be issued is tentative. Interested persons are invited to submit written comments upon the proposed permit action. The public comment period begins on October 30, 2006, and ends at 4:30 p.m. on November 28, 2006.

Comments should be submitted in writing to:

Terry Mader, Land and Water Quality Permits

Industrial Division
Minnesota Pollution Control Agency
520 Lafayette Road North
St. Paul, Minnesota 55155-4194

Any comments received no later than 4:30 p.m. on the last day of the comment period will be considered in the formulation of the final determination on the permit.

A copy of the draft permit, fact sheet and public notice are available for review on the internet at <http://www.pca.state.mn.us/permits>, and at the St. Paul MPCA office address listed above, and may be copied between 9:00 a.m. and 3:30 p.m., Monday through Friday. To request a copy of the draft permit, fact sheet and public notice or have questions on this draft permit or the Commissioner's preliminary determination, please contact Terry Mader at (651) 296-7021 or toll free at (800) 657-3864

Notice of Availability of Draft Lake Independence Total Maximum Daily Load Report and Request for Comment

Public Comment Period Begins: October 30, 2006

Public Comment Period Ends: November 29, 2006

The Minnesota Pollution Control Agency (MPCA) is requesting comments on the draft Report for the Lake Independence Total Maximum Daily Load (TMDL). Lake Independence (Hennepin County) is impaired because it does not meet the water quality standard for nutrients. The draft TMDL Report for Lake Independence is available for review at:

<http://www.pca.state.mn.us/water/tmdl.html#drafttmdl>.

Following the comments, the MPCA will revise the draft TMDL Report and submit it to the U.S. Environmental Protection Agency (EPA) for approval. Comments must be sent to the MPCA contact person listed below by November 29, 2006.

Required by the Federal Clean Water Act, a TMDL is a scientific study that calculates the maximum amount of a pollutant that a waterbody can receive and still meet water quality standards for that pollutant. It is a process that identifies all the sources of the pollutant causing impairment and allocates necessary reductions among them. This multi-year effort results in pollution reduction plan and engages stakeholders and the general public. An approved TMDL is followed by implementation activities for achieving the necessary reductions. Lake Independence is designated as Class 2(b) water for the protection of aquatic recreation (Minnesota Rules chapter 7050). Nutrient standards for the protection of this beneficial use are 40ug/l mean growing season average for phosphorus.

Lake Independence, Minnesota Department of Natural Resources (DNR), Lake ID# 27-0176-00 is an 851-acre lake located in the Pioneer-Sarah Creek Watershed approximately 15 miles west of Minneapolis, Minnesota.

The lake is used extensively for boating, fishing, swimming, and aesthetic viewing by local residents as well as the entire Twin Cities regional area.

The samples used to list Lake Independence for aquatic recreation use impairment were collected from 1990 to 2003, by the Three Rivers Park District personnel.

The critical condition for the excess nutrient impairment (primarily phosphorus) in Lake Independence is during the summer growing season. The TMDL has calculated a needed 45 percent reduction in phosphorus levels to achieve the water quality standards and avoid future water quality impairments.

Phosphorus loading to Lake Independence from its various sub-watersheds was found to be due primarily to runoff from feedlots and manure applied areas, agricultural cropland, and urban developments. Other sources include rural developments, and the Loretto Wastewater Treatment Plant discharge. Phosphorus from shoreline erosion, geese, failing septic systems, a golf course, and parkland combined contribute less than 4 percent of the total load to Lake Independence. Direct precipitation and internal recycling processes add an additional 906 pounds (38 percent) of phosphorus annually.

Preliminary Determination on the draft TMDL Report: The MPCA Commissioner has made a preliminary determination to submit this TMDL Report to the EPA for final approval. A draft TMDL Report and fact sheet are available for review at the MPCA office at the address listed below, and at the MPCA Web site: <http://www.pca.state.mn.us/water/tmdl.html#drafttmdl>. Suggested changes will be considered before the final TMDL Report is sent to the EPA for approval.

Written Comments: You may submit written comments on the conditions of the draft TMDL Report or on the Commissioner's preliminary determination.

Written comments must include the following:

1. A statement of your interest in the draft TMDL Report;
2. A statement of the action you wish the MPCA to take, including specific references to sections of the draft TMDL that you believe should be changed; and
3. The reasons supporting your position, stated with sufficient specificity as to allow the Commissioner to investigate the merits of your position.

Petition for Public Informational Meeting: You also may request that the MPCA Commissioner hold a public informational meeting. A public informational meeting is an informal meeting that the MPCA may hold to solicit public comment and statements on matters before the MPCA, and to help clarify and resolve issues.

A petition requesting a public informational meeting must include the following information:

1. A statement identifying the matter of concern;
2. The information required under items 1 through 3 of "Written Comments," identified above;
3. A statement of the reasons the MPCA should hold a public informational meeting; and
4. The issues that you would like the MPCA to address at the public informational meeting.

Petition for Contested Case Hearing: You also may submit a petition for a contested case hearing. A contested case hearing is a formal evidentiary hearing before an administrative law judge. In accordance with *Minnesota Rules* 7000.1900, the MPCA will grant a petition to hold a contested case hearing if it finds that: (1) there is a material issue of fact in dispute concerning the application or draft TMDL Report; (2) the MPCA has the jurisdiction to make a determination on the disputed material issue of fact; and (3) there is a reasonable basis underlying the disputed material issue of fact or facts such that the holding of the contested case hearing would allow the introduction of information that would aid the MPCA in resolving the disputed facts in making a final decision on the draft TMDL Report. A material issue of fact means a fact question, as distinguished from a policy question, whose resolution could have a direct bearing on a final MPCA decision.

A petition for a contested case hearing must include the following information:

1. A statement of reasons or proposed findings supporting the MPCA decision to hold a contested case hearing according to the criteria in *Minnesota Rules* 7000.1900, as discussed above; and
2. A statement of the issues proposed to be addressed by a contested case hearing and the specific relief requested or resolution of the matter.

In addition and to the extent known, a petition for a contested case hearing should also include the following information:

1. A proposed list of prospective witnesses to be called, including experts, with a brief description of proposed testimony or summary of evidence to be presented at a contested case hearing;
2. A proposed list of publications, references, or studies to be introduced and relied upon at a contested case hearing; and
3. An estimate of time required for you to present the matter at a contested case hearing.

MPCA Decision: You may submit a petition to the Commissioner requesting that the MPCA Citizens' Board consider the TMDL Report approval. To be considered timely, the petition must be received by the MPCA by 4:30 p.m. on the date the public comment period ends, identified on page one of this notice. Under the provisions of *Minnesota Statutes* § 116.02, subd 6(4), the decision whether to submit the TMDL Report and, if so, under what terms will be presented to the Board for decision if: (1) the Commissioner grants the petition requesting the matter be presented to the Board; (2) one or more Board members request to hear the matter before the time the Commissioner makes a final decision on the TMDL Report; or (3) a timely request for a contested case hearing is pending. You may participate in the activities of the MPCA Board as provided in *Minnesota Rules* 7000.0650.

The written comments, requests, and petitions submitted on or before the last day of the public comment period will be considered in the final decision on this TMDL Report. If the MPCA does not receive written comments, requests, or petitions during the public comment period, MPCA staff as authorized by the Board, will make the final decision on the draft TMDL Report.

Notice of Availability of draft Lower Otter Tail Turbidity Total Maximum Daily Load Report and Request for Comment

Public Comment Period Begins: October 30, 2006

Public Comment Period Ends: November 29, 2006

The Minnesota Pollution Control Agency (MPCA) is requesting comments on the draft report for the Lower Otter Tail River (LOTR) Turbidity Total Maximum Daily Load (TMDL). The draft TMDL Report for the LOTR is available for review at:

<http://www.pca.state.mn.us/water/tmdl.html#drafttmdl>.

Following the comments, the MPCA will revise the draft TMDL Report and submit it to the U.S. Environmental Protection Agency (EPA) for approval. Comments must be sent to the MPCA contact person listed below before the end of the public comment period. Required by the federal Clean Water Act, a TMDL is a scientific study that calculates the maximum amount of a pollutant that a waterbody can receive and still meet water quality standards for that pollutant. It is a process that identifies all the sources of the pollutant causing an impairment and allocates necessary reductions among them. This multi-year effort results in a pollution reduction plan and engages stakeholders and the general public. An approved TMDL is followed by implementation activities for achieving the necessary reductions. The lower eight miles of the Otter Tail River in Wilkin County is impaired because it does not meet the turbidity water quality standard. Turbidity is a measure of the water's clarity and is caused by the amount of particles in the water, such as sediment. Higher turbidities reduce the penetration of sunlight in the water and can harm aquatic life.

The Otter Tail River is located in west-central Minnesota with the mouth of the river at Breckenridge, Minnesota. The confluence of the Otter Tail River and the Bois de Sioux River at Breckenridge is considered to be the headwaters of the Red River of the North. The lowest 8.2 mile segment of the Otter Tail River is the last reach downstream before the confluence with the Bois de Sioux River and will be referred to as the Lower Otter Tail River in this report.

Notice of Availability of Draft Sunrise River North Branch Fecal Coliform Bacteria Total Maximum Daily Load Report and Request for Comment

Public comment period begins: October 30, 2006

Public comment period ends: November 29, 2006

The Minnesota Pollution Control Agency (MPCA) is requesting comments on the draft report for the North Branch of the Sunrise River Fecal Coliform Total Maximum Daily Load (TMDL). The recreational use of the North Branch of the Sunrise River, from its headwaters to its confluence with the Sunrise River main stem, is impaired because it does not meet state water quality standards for fecal coliform bacteria.

The entire reach of the North Branch of the Sunrise River has been determined to be impaired based on water quality monitoring

conducted during 1997, 1998, 2002 and 2003. These results have frequently shown excessive levels of fecal coliform bacteria making the waters unsuitable for swimming and other types of aquatic recreation. The TMDL study assessed the fecal coliform concentrations in the river and determined the amounts of fecal coliform the river could receive and still meet water quality standards. Possible sources of fecal coliform were also evaluated, including point sources such as the city of North Branch wastewater treatment facility (WWTF), non-point sources such as wastes from livestock facilities, and naturally occurring sources such as wildlife. Unregulated livestock facilities, pastures near streams and the river, and poorly functioning individual sewage treatment systems were determined to be the main sources of fecal coliform contamination in the watershed. The North Branch WWTF was found not to be a major contributor of fecal coliform bacteria because its effluent is disinfected prior to discharge.

The draft TMDL report indicated a reduction of approximately 52 percent for fecal coliform bacteria will be needed to meet the water quality standard during the month of June, 2006, corresponding to the time when violations of the fecal coliform standard are more likely to occur. Implementation strategies in the draft TMDL report will be used to guide future bacteria reduction efforts. A more detailed implementation plan will be developed to identify specific measures needed to achieve the desired reductions.

Preliminary Determination on the Draft TMDL Report: The MPCA Commissioner has made a preliminary determination to submit this draft TMDL report to the U.S. Environmental Protection Agency (EPA) for final approval. A draft TMDL report and fact sheet are available for review at the MPCA office at the address listed below and at the MPCA Web site:

<http://www.pca.state.mn.us/water/tmdl/index.html>.

Written Comments: You may submit written comments on the draft TMDL report or on the MPCA Commissioner's preliminary determination. Written comments must include the following:

1. A statement of your interest in the draft TMDL report;
2. A statement of the action you wish the MPCA to take, including specific references to sections of the draft TMDL report that you believe should be changed; and
3. The reasons supporting your position, stated with sufficient specificity as to allow the MPCA Commissioner to investigate the merits of your position.

Written comments on the draft TMDL report must be sent to the MPCA contact person listed below and received by 4:30 p.m. on November 29, 2006. The MPCA will prepare responses to comments received, make any necessary revisions of the draft TMDL report and submit it to the EPA for approval.

Agency Contact Person: Written comments and requests for more information should be directed to:

Craig Affeldt
Minnesota Pollution Control Agency
520 Lafayette Road
St. Paul, Minnesota 55155
Telephone: (651) 296-6062 (direct)

Fax: (651) 297-8676

E-mail: craig.affeldt@pca.state.mn.us

TTY users may call the MPCA teletypewriter at 651-282-5332 or 800-657-3864.

Petition for Public Informational Meeting: You may request that the MPCA Commissioner hold a public informational meeting. A public informational meeting is an informal meeting the MPCA may hold to solicit public comment and statements on matters pertaining to the TMDL study and process, and to help clarify and resolve issues.

A petition requesting a public informational meeting must include the following information:

1. A statement identifying the matter of concern;
2. The information required under items 1 through 3 of "Written Comments," identified above;
3. A statement of the reasons the MPCA should hold a public informational meeting; and
4. The issues that you would like the MPCA to address at the public informational meeting.

Petition for Contested Case Hearing: You also may submit a petition for a contested case hearing. A contested case hearing is a formal evidentiary hearing before an administrative law judge. In accordance with *Minnesota Rules* 7000.1900, the MPCA will grant a petition to hold a contested case hearing if it finds that: 1) there is a material issue of fact in dispute concerning the draft TMDL report; 2) the MPCA has the jurisdiction to make a determination on the disputed material issue of fact; and 3) there is a reasonable basis underlying the disputed material issue of fact or facts such that the holding of the contested case hearing would allow the introduction of information that would aid the MPCA in resolving the disputed facts in making a final decision on the draft TMDL report. A material issue

Official Notices

of fact means a fact question, as distinguished from a policy question, whose resolution could have a direct bearing on a final MPCA decision.

A petition for a contested case hearing must include the following information:

1. A statement of reasons or proposed findings supporting an MPCA decision to hold a contested case hearing according to the criteria in *Minnesota Rules* 7000.1900, as discussed above; and
2. A statement of the issues to be addressed by a contested case hearing and the specific relief requested or resolution of the matter.

In addition and to the extent known, a petition for a contested case hearing should also include the following information:

1. A proposed list of prospective witnesses to be called, including experts, with a brief description of proposed testimony or summary of evidence to be presented at a contested case hearing;
2. A proposed list of publications, references, or studies to be introduced and relied upon at a contested case hearing; and
3. An estimate of time required for you to present the matter at a contested case hearing.

MPCA Decision: You may also submit a petition to the Commissioner requesting that the MPCA Citizen's Board consider the TMDL report approval. To be considered timely, the petition must be received by the MPCA by 4:30 p.m. on the date the public comment period ends, identified on page 1 of this notice. According to *Minnesota Statutes* § 116.02 subd 6(4), the decision whether to submit the TMDL report and, if so, under what terms, will be presented to the Board for decision if: (1) the Commissioner grants the petition requesting the matter be presented to the Board; (2) one or more Board members request to hear the matter before the time the Commissioner makes a final decision on the TMDL report; or (3) a timely request for a contested case hearing is pending. You may participate in the activities of the MPCA Board as provided in *Minnesota Rules* 7000.0650.

The written comment, requests, and petitions submitted on or before the last day of the comment period will be considered in the final decision on this TMDL report. If the MPCA does not receive written comments, requests, or petitions during the public comment period, MPCA staff, as authorized by the Board, will make the final decision on the draft TMDL report.

Public Utilities Commission

Notice of Final PUC Decision on Xcel Energy's HVTL Route Permit Application for the Cannon Falls Transmission Line Project: (1) Environmental Assessment and Record created at the public hearing adequately addresses issues identified in the Scoping Decision; (2) HVTL Route Designation and issuing of a HVTL Route Permit

At its regular meeting on September 21, 2006, the Minnesota Public Utilities Commission determined that the Environmental Assessment and the record created at the public hearing had adequately addressed the issues identified in the Scoping Decision. The Commission also designated a HVTL route and issued a HVTL Route Permit for the proposed Cannon Falls Transmission Line project.

Governor's Council on Developmental Disabilities

Notice of Cosponsorship Funds for Leadership Training Conferences

The Governor's Council on Developmental Disabilities (GCDD) is pleased to announce the availability of a total of \$20,000 in cosponsorship funds for training conferences held in Minnesota. Conferences should focus on providing best practices information and leadership skills training. The primary audience for these conferences must be people with developmental disabilities and their families. Conferences must be held no later than September 15, 2007.

Eligible applicants are Minnesota associations/organizations of parents, people with developmental disabilities, advocates, providers, or professionals; Minnesota chapters of national organizations; or national organizations that are holding a conference in Minnesota.

Application deadline is Thursday, Jan. 18, 2007 at 3:00 p.m.

Please note: The GCDD reserves the right to award less than the maximum of \$2,000 to an applicant, refuse to cosponsor a conference, or withdraw the availability of funds with notice.

Department of Administration Governor's Council on Developmental Disabilities Notice of Request for Proposals for Self Advocacy

The Governor's Council on Developmental Disabilities (GCDD) is pleased to announce the availability of a total of \$100,000 in federal funds under provisions of the Developmental Disabilities Assistance and Bill of Rights Act of 2000 (DD Act)(P.L. 106-402) to expand and strengthen self advocacy in Minnesota.

Proposals are being sought from nonstate agencies or organizations. The GCDD may award a single statewide grant of \$100,000, or up to four regional grants of \$25,000 each. Proposals must include support of local self advocacy groups at the grassroots level in the Twin Cities metropolitan area and Greater Minnesota, strengthen existing groups and help develop new self advocacy groups where currently there are no groups, provide learning and teaching opportunities for self advocates to improve their leadership skills, and expand their participation in cross-disability and culturally diverse coalitions.

Funding is available for a one-year period. Continuation funding is dependent upon the availability of federal funds, satisfactory performance of the contractor(s), and any changes in the DD Act resulting from Congressional reauthorization.

Application deadline is Thursday, Jan. 18, 2007 at 3:00 p.m. Please note: The GCDD reserves the right reject all proposals.

Perpich Center for Arts Education**Professional Development and Research****Notice of Request for Proposal for an Evaluation of Quality Teaching in the Arts**

NOTICE IS HEREBY GIVEN that The Perpich Center for Arts Education is seeking proposals from qualified evaluators, who are individuals, or organizations, to conduct a high quality evaluation of Quality Teaching in the Arts: The Minnesota Arts Education Network (QTA). QTA is a \$1.2 million, three-year, professional development project focusing on arts teachers from high poverty schools in Minnesota. QTA is conducted with federal funds from the US Department of Education grant (approximately 80% of project budget) and with funds from the Perpich Center for Arts Education. The evaluator will be required to submit annual reports, beginning in October 2007, that show QTA progress toward meeting its stated goals. The specific services to be provided under this contract are outlined in detail in the Professional Development and Research, Request for Proposal (RFP) Statement of Project Scope and Tasks. The formal RFP may be requested from:

Byron Richard, Arts Quality Teaching Networks Coordinator
Perpich Center for Arts Education
6125 Olson Memorial Highway
Golden Valley, Minnesota 55422
(763) 591-4721 or 1-800-657-3515 (toll free)

Services are to be provided during the contract period from December 15, 2006 to June 30, 2008. It is anticipated that the cost of the contracted services described in the Request for Proposals will be no more than \$85,000 for the contract dates indicated.

The deadline for submission of proposals is 4:00 p.m., CST, Monday, November 13, 2006. Faxed proposals will not be considered. It is anticipated selections will be made by November 20, 2006. Proposals should be submitted to Byron Richard, Arts Quality Teaching Network Coordinator.

Department of Transportation (Mn/DOT)**Engineering Services Division****Notice of Potential Availability of Contracting Opportunities for a Variety of Highway Related Technical Activities (the "Consultant Pre-Qualification Program")**

This document is available in alternative formats for persons with disabilities by calling Ron Bisek at (651) 296-1361 for persons who are hearing or speech impaired by calling the Minnesota Relay Service at (800) 627-3529.

Mn/DOT, working in conjunction with the Consultant Reform Committee, the Minnesota Consulting Engineers Council, and the Department of Administration, has developed the Consultant Pre-qualification Program as a new method of consultant selection. The ultimate goal of the Pre-Qualification Program is to streamline the process of contracting for highway related professional/technical services. Mn/DOT anticipates that most consultant contracts for highway-related technical activities will be awarded using this method, however, Mn/DOT also reserves the right to use RFP or other selection processes for particular projects. Nothing in this solicitation requires Mn/DOT to complete or use the Consultant Pre-qualification Program.

Mn/DOT is currently requesting applications from consultants. Refer to Mn/DOT's Consultant Services web site, indicated below, to see which highway related professional/technical services are available at this time. Following the advertisement of particular category of services, applications will be accepted on a continual basis.

All expenses incurred in responding to this notice will be borne by the responder. Response to this notice becomes public information under the Minnesota Government Data Practices.

Consultant Pre-Qualification Program information, application requirements and application forms are available on Mn/DOT's **web site** at: <http://www.dot.state.mn.us/consult>

Notice Concerning Professional/Technical Contract Opportunities

NOTICE TO ALL: The Minnesota Department of Transportation (Mn/DOT) is now placing additional public notices for professional/technical contract opportunities on Mn/DOT's Consultant Services **website** at: www.dot.state.mn.us/consult.

New public notices may be added to the website on a daily basis and be available for the time period as indicated within the public notice.

Non-State Bids, Contracts & Grants

The *State Register* also serves as a central marketplace for contracts let out on bid by the public sector. The *State Register* meets state and federal guidelines for statewide circulation of public notices. Any tax-supported institution or government jurisdiction may advertise contracts and requests for proposals from the private sector. It is recommended that contracts and RFPs include the following: 1) name of contact person; 2) institution name, address, and telephone number; 3) brief description of commodity, project or tasks; 4) cost estimate; and 5) final submission date of completed contract proposal. Allow at least three weeks from publication date (four weeks from the date article is submitted for publication). Surveys show that subscribers are interested in hearing about contracts for estimates as low as \$1,000. Contact editor for further details.

Anoka County

Notice of Request for Proposals for Business Analysis and Technical Environment Assessment Services for Criminal Justice Integration Hub

NOTICE IS HEREBY GIVEN that Anoka County is seeking proposals to establish a criminal justice integration hub ("the hub") to share and exchange data between criminal justice partners across the County and the various municipalities in the County. Anoka County seeks to contract with an outside consultant to provide business analysis, technical environment assessment services, and develop a hub implementation report including a phased plan for the implementation for the criminal justice hub, including identification of the data exchanges to occur; business process improvement; and technical environment recommendations to support the hub.

Proposals shall be submitted in exact accordance with the Request for Proposals (RFP) Package. The Request for Proposals Package may be obtained at the Anoka County web site: <http://www.co.anoka.mn.us/bids>.

Proposal due date: November 15, 2006 at 4:00 p.m. Central Daylight Saving Time.

If one needs an accommodation, such as an interpreter or printed material in an alternate format (i.e. Braille, large print, or audio), contact John Sullivan, Risk & Procurement Manager at (763) 323-5370, TDD/TTY (763) 323-5289.
